“Empower to Excel”

The theme for the Academic year 2023-2024

Women play an important role in the effective development of a family and society. Empowering women is crucial to the socioeconomic prosperity of any nation. St. Joseph's College for Women, Tirupur, being one of the pioneers in the education of women, has developed to support education at the highest level with state-of-the-art infrastructure and technology. The academic courses and pedagogical strategies provided are sure to equip the female students with exceptional domain knowledge and critical thinking abilities, preparing them for the future ahead. Keeping up the pace, the institution is making an effort to center the academic year's activities around a single theme.

‘Empower to Excel’ is the theme for this Academic year 2023-2024.

The goal of this theme is to give students a stimulating intellectual environment and abundance of opportunities to explore their multiple abilities, allowing them to succeed as highly competent and honourable citizens.

As Aung San Suu Kyi rightly stated, "The education and empowerment of women throughout the world cannot fail to result in a more caring, tolerant, just and peaceful life for all," I am confident that the theme "Empower to Excel" will help each individual student with a God-given unique skill set, in not only achieving her goals, but also in becoming a catalyst for establishing a more equitable and just society.

God bless!

With warm wishes
Dr. S. Sahaya Tamil Selvi
Principal

OUTCOME BASED EDUCATION

Outcome based education (OBE) is a student-centered instruction model that focuses on measuring student performance through outcomes. OBE is established to address the evolving needs of the global workforce in terms of skill learning and self-upgrading with the most recent knowledge in practical fields. Instead of being content or trainer-centric, training techniques are created with the learner in mind. The goal is to increase learner participation.

The framework is designed to help institutions incorporate modern learning concepts in their daily operations. In addition to understanding what's expected, outcome-based education also encourages transparency. The basic principle of outcome-based education is that students must meet a specific standard to graduate. As per the curriculum prescribed by Bharathiar University, St. Joseph's College for Women in Tirupur is attempting to implement OBE through teaching strategies, and evaluation design so that students get graduated with confidence in their ability to acquire useful, desirable, and practical life skills.

CHOICE - BASED CREDIT SYSTEM

Choice Based Credit System (CBCS) is a flexible system of learning. 'Credit' defines the quantum of contents / syllabus prescribed for a course and determine the number of hours of instruction required. The distinguishing features of CBCS are the following.

It permits the students to :

- Learn at their own pace.
- Adopt an inter - disciplinary approach in learning.
- Choose Elective papers offered by their programmes.
- Undergo four skill based courses offered by the programme.

A woman who knows her worth doesn't measure herself against others,
