## ***Principal's Message***

Women play an important role in the effective development of a family and society. Empowering women is crucial to the socioeconomic prosperity of any nation. St. Joseph's College for Women, Tirupur, being one of the pioneers in the education of women, has developed to support education at the highest level with state-of-the-art infrastructure and technology. The academic courses and pedagogical strategies provided are sure to equip the female students with exceptional domain knowledge and critical thinking abilities, preparing them for the future ahead. In an effort to stay on track, a specific theme is chosen for every academic year around which all activities are organised.

‘Acquire skills, Craft your Career’ is the theme for this Academic year 2024-2025.

The objective is to provide training and skill development that goes beyond imparting technical and management competencies, with a greater emphasis on helping the student attain her full potential. Knowing that God has given each of us a unique set of skills, it is our responsibility to further develop them to enable us to succeed.

As the saying goes rightly, ‘The future belongs to those who learn more skills and combine them in creative ways’ by Robert Greene, I am confident that the theme will assist each individual student in not only achieving her goals, but also in becoming a catalyst for creating a more equitable and just society.

God Bless!

With warm wishes  
**Dr. S. Sahaya Tamil Selvi**

## **OUTCOME BASED EDUCATION**

Outcome based education (OBE) is a student-centered instruction model that focuses on measuring student performance through outcomes. OBE is established to address the evolving needs of the global workforce in terms of skill learning and self-upgrading with the most recent knowledge in practical fields. Instead of being content or trainer-centric, training techniques are created with the learner in mind. The goal is to increase learner participation.

The framework is designed to help institutions incorporate modern learning concepts in their daily operations. In addition to understanding what's expected, outcome-based education also encourages transparency. The basic principle of outcome-based education is that students must meet a specific standard to graduate. As per the curriculum prescribed by Bharathiar University, St. Joseph's College for Women is attempting to implement OBE through teaching strategies, and evaluation design so that students get graduated with confidence in their ability to acquire useful, desirable, and practical life skills.

## **CHOICE - BASED CREDIT SYSTEM**

Choice Based Credit System (CBCS) is a flexible system of learning. 'Credit' defines the quantum of contents / syllabus prescribed for a course and determine the number of hours of instruction required. The distinguishing features of CBCS are the following.

It permits the students to :

- ☐ Learn at their own pace.
- ☐ Adopt an inter - disciplinary approach in learning.
- ☐ Choose Elective papers offered by their programmes.
- ☐ Undergo four skill based courses offered by the programme.

*"Skill and confidence are an unconquered army." - George Herbert.*
