Date: 19.10.2022

## Environment and Energy Usage Policy

### Aim:

To cultivate environmental awareness and promote sustainable energy practices among the students.

### Objectives:

- To utilize Solar energy.
- To maximize energy efficiency while minimizing costs and consumption.
- To implement practices of reducing, reusing, and recycling of all types of waste..
- To establish routine monitoring and follow-up protocols for environmental initiatives.
- To reduce CO2 emissions through measures such as speed limit regulations on campus roads and promotion of alternative transportation methods.
- To install LED lights across the campus to save energy.
- To utilize rainwater collection systems and organize tree-planting campaigns.
- To continuously implement new actions to improve energy consumption.
- To provide energy-related information and training programs for faculty members and students.

### Practices:

- Arrange regular awareness programmes by all the departments on the economic and efficient usage of energy.
- More trees are planted on campus and in surrounding areas to maintain greenery and pure air.
- Renewable and solar energy sources are utilized.
- "Pollution Free Day" is observed regularly to maintain a vehicle-free zone and save gasoline.
- Waste segregation is maintained and solid waste is processed into organic manure for campus use.
- LED tubes and bulbs are installed to reduce electricity usage.
- Electronic equipments are switched off when not in use to conserve power.
- Energy audit is conducted.
