St. Joseph's Old Students' Association

The creation of an engaged and supportive alumni network is vital to the success of any educational institution. With this objective, OSA seeks to cultivate a passionate community that fosters a spirit of unity among alumni, current students, staff, and the management of the institution. The association's primary goal is to facilitate the exchange of ideas that, while mutually beneficial, also contribute to the pursuit of excellence, professional competence, and the overall enhancement of quality of life.

Policies:

1. To serve as a link between the institution's illustrious past and its promising future.
2. To establish and nurture a long-term, mutually beneficial relationship grounded in integrity and trust between alumni and the institution.
3. To advance the mission and vision of the institution, contributing to its progress and that of its students.
4. To develop and maintain a comprehensive alumni database (alumni directory) and to acknowledge the alumni who have made significant contributions to society.
5. To facilitate networking among alumni and provide a platform for interaction and resource sharing.
6. To address socio-economic issues within the local context, with the broader objective of building a strong and vibrant nation.

Practices:

1. Encourage active participation of alumni in the programs and events organized within the institution.
2. Seek alumni support for fundraising initiatives and the establishment of scholarship and mentoring programs.
3. Leverage the expertise of alumni to strengthen the connection between the institution (academic center) and industry (non-academic entities).
4. Maintain regular communication with alumni and organize reunion and homecoming events periodically.
5. Promote alumni involvement in outreach activities, particularly in areas related to women's education, healthcare, and empowerment.
